Ask for drawbacks of using this code

Ask to navigate to https://code-editor-updated.herokuapp.com/

Ask to define class
        Worked as expected
Ask to define constructor in class

        Normal paren should not autofill

Ask to extend defined class

        Commented that it was good that previous identifiers were in autocomplete list
Ask to scroll through auto complete

        Worked as expected

Ask to assign a variable to a string
        Worked as expected

Ask for any comments on use of the system
        autofill has issue with newline

        Autocomplete not using enter is good

        Click to auto complete
